Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Book 1 describes some fun times---and some difficult times. Dr. Wade tells us of his mainly lucky teen years. He also tells us about his mother s horrible iron deficiency (that many women suffer and unfortunately go undiagnosed) and how to diagnose it. In addition, he tells us how to decide if a medication, surgery, or merely observation is the best or the worst thing to do. He then talks about his wonderful father. Book 2 is about one of the main pursuits of Dr. Wade s professional career, which was his attempt to improve the care of patients by using a better method of diagnosis. In other words a method to make the correct diagnosis, accurately and quickly. The correct diagnosis is pivotal to excellent care---all else, the tests, the medications, any surgery, all depend on having a correct diagnosis. To accomplish that goal, Dr. Wade authored a book and then developed a computerized differential diagnosis program. The book is an extensive compendium of the causes for thousands of symptoms, signs, and test results. The computer diagnosis program, within seconds, gives the doctor a list of the more likely diagnoses for hundreds of symptoms, signs, and abnormal test results; and lists them in a decreasing order of probability. A knowledgeable doctor can in just a few seconds go down the list and decide what to do next. However, doctors would not use this program. Instead, they relied on their memory, a notoriously fallible approach to the huge number of diagnostic possibilities. Book 2 and subsequent books describe the frustrations, the obstacles, the illogic, the inconsistencies, the hostility, and the disbeliefs Dr. Wade encountered over the years while...
