

Healthcare Information Technology Exam Guide for CompTIA Healthcare IT Technician and HIT Pro Certifications (Mixed media product)

By Kathleen Ann Mccormick, Brian Gugerty

McGraw-Hill Education - Europe, United States, 2013. Mixed media product. Book Condition: New. 231 x 185 mm. Language: English . Brand New Book. Written for IT professionals new to healthcare information technology (HIT), this book is an essential guide to the burgeoning field of HIT, the CompTIA Healthcare IT Technician exam, AND all six HIT Pro exams. Healthcare Information Technology Essentials for the IT Professional: A Guide to the CompTIA Healthcare IT Technician Certification is an introductory guide designed to familiarize IT professionals with the health-related aspects and define the IT requirements of the HIT field. The book prepares IT professionals to transition into HIT with coverage of topics ranging from regulatory requirements to healthcare organizational behavior. This valuable resource also doubles as an exam guide for the CompTIA Healthcare IT Technician exam. The book offers complete coverage of all CompTIA exam objectives and includes an objective map that maps the content of the book to the official CompTIA exam objectives. Also included are chapter summaries which highlight the pertinent information presented in the chapter and chapter review questions which test for comprehension. The CD-ROM contains two simulated practice exams that mirror the CompTIA exam in content, style, tone, format,...

Reviews

This created pdf is fantastic. Indeed, it can be perform, nonetheless an interesting and amazing literature. Its been developed in an remarkably straightforward way and is particularly simply following i finished reading this publication by which in fact altered me, alter the way i really believe.

-- Amanda Hand Jr.

A must buy book if you need to adding benefit. Of course, it is actually perform, still an interesting and amazing literature. I am delighted to explain how this is basically the best book i actually have read through during my individual life and may be he best book for at any time.
